

Mogiv Tutorial for Givers

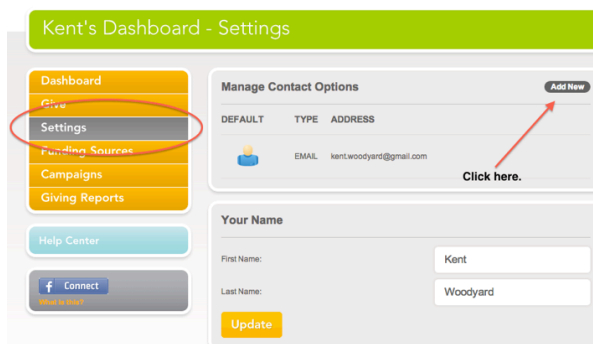

Giving Via Text

If you've created a Mogiv account, then you already know how easy it is to use Mogiv to setup one-time or scheduled gifts on the internet. BUT...did you know you can also use Mogiv to text in your donations directly from your mobile phone? (You don't even need a smart phone!) Here's how it works...

Step 1: Login to your account

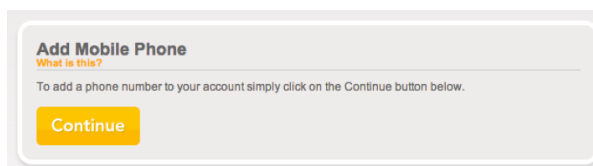

- ▶ Log into your Mogiv account using your email and password
- ▶ From your dashboard, click "Settings"

Step 2: Add your phone as a contact option

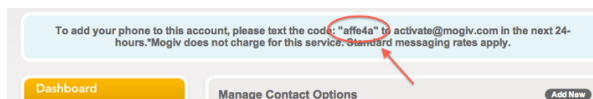

- ▶ Under "Manage Contact Options" click "Add New"
- ▶ Under "Add Mobile Phone" click "Continue."

This will generate a confirmation code.

Step 3: Activate your phone

- ▶ From your phone, text the confirmation code to activate@mogiv.com.

Start Giving!

Your phone is now activated! To give from your phone, simply text any dollar amount to the unique giving address to the campaign(s) you would like to support (e.g. to give \$15.00, text "15").

Questions?

Not sure where to text in donations? Check with someone at the organization you support, or email us at support@mogiv.com.

Thanks for using Mogiv!
